

HYPower
Heavy Current Maintenance (Pty) Ltd.

Hypower Heavy Current Maintenance (Pty) Ltd was established in 2002 by experts in the transformer service industry. The company offers a wide range of products and services in the transformer maintenance and installation business and is powered by precision. We help our customers to run their high voltage equipment trouble free and cost-effectively over its entire lifetime, starting from transportation, rigging, and testing to preventative maintenance, repair, and upgrade. So, you can rely on a secure power supply – whether it is to your business or home. Become part of our success story. Join us at our location in CAPE TOWN or JOHANNESBURG as
